<p><i>Description</i> : Expedited Processing Task</p> <p><i>Comments</i> : This request concerns a matter of urgency. The information sought relates to a currently unfolding story, specifically, the release of wastewater bearing heavy metals into the Animas River. Second, delaying release of the information harms the public interest in knowing what actions were taken before the blowout at the Gold King Mine. Third, the request obviously concerns federal government activity, as the request seeks information on how the EPA planned the entry into the Gold King Mine. Finally, as the world's oldest and largest news organization, the AP is a credible requester. I certify that my statements concerning the need for expedited review are true and correct to the best of my knowledge and belief. If you deny expedited processing, I expect to receive a response to the request within 20 business days, as the statute requires.</p>

<p><i>Description</i> : Fee Waiver Task</p> <p><i>Comments</i> : I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. I ask that you waive any and all applicable fees associated with this request. Through this request, I am gathering information on the accidental release of wastewater into the Animas River during an attempt by an EPA-supervised crew to enter the mine. Release of this information is in the public interest because it will contribute significantly to public understanding of government operations and activities, particularly how the EPA plans and executes cleanup operations and investigations at inactive mines.</p>
